Action Taken Report on Feedback

In response to the need for enhancing student morale and motivation, an action was taken to implement a Positive Feedback Initiative aimed at recognizing and reinforcing student achievements and efforts within RPM College.

Strengths Highlighted by Student Feedback:

- **Teacher Preparedness and Knowledge:** 89% of students strongly agree that teachers are well-prepared and knowledgeable in their subjects. This is a testament to the dedication and expertise of our faculty.
- **Fair and Transparent Evaluation:** 90% of students agree that teachers employ fair and transparent internal evaluation processes. This ensures that students receive accurate and consistent feedback on their performance.
- **Student-Centric Methods:** 86% of students appreciate the use of student-centric methods, including experiential learning, participative learning, and problem-solving approaches. This fosters a more engaging and active learning environment.
- **Responsive to Student Queries:** Students value the willingness of teachers to address their questions and concerns (92% agreement). This open communication promotes understanding and facilitates academic progress.
- **Effective Use of ICT Tools:** 89% of students report that teachers effectively utilize ICT tools as a resource for curriculum delivery. This enhances classroom learning and improves knowledge acquisition.
- **Soft Skills and Life Skills Development:** Teachers go beyond curriculum completion, focusing on developing soft skills, life skills, and employability (89% agreement). This equips students with essential skills for personal and professional success.
- **Weakness Identification and Support:** 87% of students acknowledge that teachers actively identify and address students' weaknesses, providing individual support and guidance. This personalized approach ensures that all students have the opportunity to thrive.
- **Syllabus Completion and Punctuality:** Teachers consistently complete the syllabus on time (99% agreement) and demonstrate exceptional punctuality and regularity in attending classes (93% agreement). This creates a predictable and reliable learning environment.

- **Effective Communication:** 85% of students commend the communication skills of teachers, finding them clear, engaging, and informative. This promotes effective knowledge transfer and understanding.

The Positive Feedback Initiative has already shown promising results in terms of student morale and engagement. By actively recognizing and celebrating student achievements, we are fostering a more positive learning environment that encourages excellence and camaraderie among students.

Moving forward, we will continue to expand and refine our approach to ensure that every student feels valued and appreciated for their contributions to the college community.

ACTION TAKEN

The feedback collection process has been well-received by faculty, with an increasing number

The online feedback form has streamlined the process, making it easier for staff and students to share positive experiences and feedback.

Student demanded drinking water facilities, cycle stand, water cooler, canteen, playground, sanitary napkin – vending and disposal machine facility, self defence training and more washroom facilities in their feedback.

Water facilities –

After receiving feedback from the students, the principal of the college immediately Installed submersible boring and arranged cold water and RO in the common room.

Washroom cleanliness and renovation

The issue related to washroom cleanliness and the urgent need for improved washroom facilities management team has taken the following action, immediate steps have been taken to intensify the cleaning schedule of existing washrooms. This includes increase frequency of cleaning and ensuring the availability of necessary cleaning supplies

We have engaged in discussion with relevant authorities and stake holder to expedite the process renovation of washroom considering budgetary allocations and regulatory approvals.

Sanitary napkin - vending and disposal machine installation –

We are pleased to announce that a sanitary napkin vending machine has been installed in girls common room, thanks to the generous initiative and contribution from our alumni network. These vending machine will provide convenient access to menstrual hygiene products for our students and staffs. Sanitary napkin - vending and disposal machine facility has also been provided by college.

Cycle stand

The need for a cycle stand at the college gate was identified to promote greener mode of transportation and to provide students and staff with a secure place to park their bicycles. The cycle stand has been successfully installed, providing a practical solution to support cycling as a means of commuting within the college community.

Need of playground

We have facility for indoor games but due to lack of space for outdoor games a large ground opposite college campus {city school playground} is used. To overcome this shortage the management and stakeholder are continuously maintaining contacts with the govt. of Bihar.

Judo Karate training

In the self defence field the college has taken initiative to give free training program of judo karate to students.

Future plans

Following the positive feedback received from our recent initiatives, we are excited to outline our future plans aimed at fostering innovation, enhancing IT capabilities, promoting knowledge sharing, and introducing additional enriching activities for our students at RPM College.

1. IT Infrastructure Enhancement:

In alignment with the digital age, we plan to enhance our IT infrastructure to better support student learning and collaboration. This includes upgrading computer labs, implementing cloud-based learning platforms, and providing training sessions on emerging technologies such as artificial intelligence and cybersecurity.

2. Benchmark in Knowledge Sharing

To promote interdisciplinary learning and knowledge exchange, we will introduce regular knowledge sharing forums where students and faculty from different departments can present their research, projects, and insights. These forums will encourage cross-disciplinary collaboration and spark intellectual curiosity among our students.

3. Sustainability Initiatives:

In line with our commitment to sustainability, we aim to introduce campus-wide initiatives focused on environmental awareness and conservation. This includes organizing eco-friendly events, promoting recycling programs, and integrating sustainability principles into our curriculum.

4. Career Development Programs:

Recognizing the importance of preparing our students for the professional world, we plan to expand our career development programs. This will involve organizing career fairs, inviting industry speakers, and offering internship opportunities to bridge the gap between academic learning and real-world experience.

5. Holistic development:

Spirituality plays an important role in the holistic development of an individual for character building based on sound moral and ethical values. Education is not mere acquisition of knowledge through academic curriculum but also imbibing the ethical and moral values to become a complete human being. It becomes a matter of paramount importance for an educational institution that moral training should be imparted to the students to overcome the ills of modern trends of materialism insensitivity and moral degradation among the youth. The college offers a wide range of co-curricular and extracurricular activities, including sports, cultural events, community service initiatives, and professional development workshops.

Conclusion:

By implementing these future initiatives, we aim to provide our students with a well-rounded educational experience that goes beyond academics. These initiatives will empower our students to excel in their chosen fields, become innovative thinkers, and contribute positively to society.
